

PART 2033 - RECORDS

SUBPART G - MULTI-FAMILY HOUSING INFORMATION, STATUS, TRACKING AND RETRIEVAL SYSTEM (MISTR).

§2033.301 Multiple Family Housing State Office Records and Reporting Systems.

Objective. This subpart provides procedures for establishing Farmers Home Administration (FmHA) records for rural rental housing (RRH) and labor housing (LH) projects on Form RD 1930-9, "Multiple Housing Activity Card," and the Multi-Family Housing Information, Status, Tracking and Retrieval System (MISTR). Form RD 1930-9 is maintained by the State Office, while MISTR is maintained by both the State and District Offices.

§§2033.302 - 2033.310 [Reserved]

§2033.311 Form RD 1930-9, "Multiple Housing Activity Card." This record keeping system will be maintained as follows:

(a) Prepare Form RD 1930-9 for each RRH or LH applicant when the State Office receives the preapplication. Update the card when new information is received.

(1) The information to be recorded on Form RD 1930-9 will be obtained from the loan/grant documents e.g., preapplications, applications, processing checklists, engineering reports, legal documents, running records, obligating documents, project/facility summaries, etc. The State Director must establish procedures to ensure that all information on this card is accurate and current.

(2) All information on the card that is subject to change should be entered in pencil.

(b) Form RD 1930-9 will be filed in a card box divided into active and inactive parts. These parts will be arranged in the following sections:

All Programs:

Section 1 - Rural Rental Housing

Section 2 - Rural Rental Housing with HUD Sect. 8

- Section 9 - Labor Housing Loan and Grant with Rental Assistance
- Section 10 - (Reserved)
- Section 11 - (Reserved)
- Section 12 - (Reserved)

(c) Filing Sequence. Cards will be filed alphabetically (last name first) by applicant/borrower name within each section.

§2033.312 MISTR.

(a) Purpose. MISTR's function is to provide current, accurate and complete RRH and LH program information. MISTR will track this information from the initial filing of a preapplication to the end of the loan.

(b) Uses. MISTR will be used to:

- (1) Cross check applicants, borrowers or members of their organizations with more than one preapplication, application or project;
- (2) Track the status of preapplications, applications, loans and projects;
- (3) Track certain LH information; and
- (4) Generate reports, lists, and statistical data for FmHA, Congress, and other interested parties.

(c) Using MISTR.

(1) State Director Responsibilities. State Directors will:

- (A) Designate a State Office staff member to coordinate and manage MISTR;
- (B) Establish a process to keep MISTR current, complete and accurate;

(C) Keep MISTR current, complete and accurate. At a minimum, this includes:

(i) initially entering all RRH and LH applicant/borrowers when a SF 424.2, "Application for Federal Assistance (For Construction)," is received; (Revised 4-11-90, SPECIAL PN)

(ii) updating MISTR status at least monthly.

(2) Access to MISTR. Each State Office and District Office can access MISTR through the communication capabilities of the multi-function workstations (MFWS).

(3) MISTR Data Collection. Prior to MISTR entry, data must be collected on Form RD 2033-42, "Multi-Family Housing Information, Status, Tracking and Retrieval System." Retain this form or a printout of the MISTR screens to provide a backup to MISTR and to "pencil in" updates or corrections. Information sources for this form include:

- (A) Form RD 1930-9
- (B) Form RD 1905-6, "Management System Card - Multi-family Housing"
- (C) Other existing RRH or LH documents from the case file; and
- (D) Other sources specified on Form RD 2033-42.

(4) MISTR Data Entry. Enter data according to the "MISTR III - User Guide" which is issued to every FmHA State and District Office. Because MISTR is compatible with the automated multiple housing accounting system (AMAS), some of the data that will appear on MISTR screen originates from AMAS.

(d) MISTR "System Maintenance". The "system maintenance" of MISTR will be performed by the Management Systems Division in the National Office.

§2033.313 Status Codes.

Exhibit A to this Subpart lists the Loan and Grant Status Codes to be used in MISTR.
